

# Partner Line Card

Burwood Group helps information technology leaders design, use, and manage technology to transform their business and improve outcomes.

Burwood Group's services in consulting, integration, and operations are rooted in aligning IT investments to business priorities. Our partners help us deliver best-in-class services and products.

To support our product and software sales, we provide a customized order status and billing online portal. Our managed services team provides 24x7 monitoring and management for on-premises and cloud infrastructure.

## Strategic Partners

Burwood Group is proud to partner with best-of-breed manufacturers. For a complete list, visit [burwood.com/partners](http://burwood.com/partners).
